elisa 300
Paediatric & Adult Ventilation

Happier Living Everyday

Instant View Technology with Easy Access Bar

The Instant View Technology gives you an intuitive grasp of the patient's situation, trends and necessary interventions.

The fully disinfectable surface enables hygienic operation at minimal cost

Modular system at a glance

Turbine Technology

The Powerful turbine technology enables maximum peak inspiratory flows of up to 300 l/min for up to 40,000 hours at 46db

Advanced Ventilation Modes

ALPV : Adaptive Lung protective Ventilation
WOB[®] : Work of breathing optimized ventilation
PAPS[®] : Proportional Adaptive Pressure Support Ventilation
CPR : Cardio Pulmonary resuscitation ventilation

HFOT (Highflow oxygen therapy)

HFOT procedure blends oxygen and deliver at a flow of up to 70 L/min after heated humidification

PEEPfinder[®]

A quasi-static low flow P-V manoeuvre to determine the optimal PEEP range by inflection points

Curves and loops

Along with graphs, three selectable loops can be monitored and saved for further investigations

Trend Storage

Offers a solution for scientific data collections like Trends for more than 7 days. Screen Snapshot can be saved in USB

00:00 hh:mm	00:00 hh:mm	00:00 hh:mm

Battery Backup

Lithium -ion battery can provide backup for 2 hours. Additional hot swappable battery slot is available for extended backup time

Data connectivity

Connectivity is possible through digital ports like USB's, DVI-D & ethernet for transfer of data's
